Primary Person Responsible for proper sorting and labeling.

Battery Type: Small Sealed Lead Acid (SSLA)

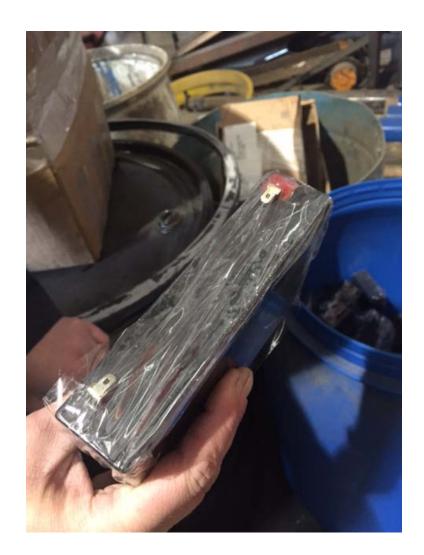

Commonly Found In: Mobility scooters, Fire emergency devices,

Emergency exit signs, UPS back-up batteries

Pros: Moderate energy density

Cons: High discharge rate, Toxic

Battery Type: Lithium Ion (Li-Ion)

Commonly Found In: Cellphones, Cordless power tools, Cordless phones, Digital cameras, Laptop computers, Tablets and e-readers, Twoway radios

Pros: High energy density, Moderate discharge rate, Performs well in high drain devices, Excellent performance, Lighter weight

Battery Type: Lithium Primary

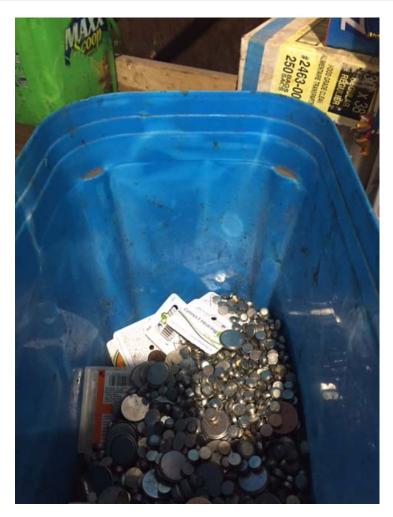

Commonly Found In: Car keyless entry remotes, Watches, Pacemakers,

Fire alarm devices

Pros: High energy density, Long shelf life

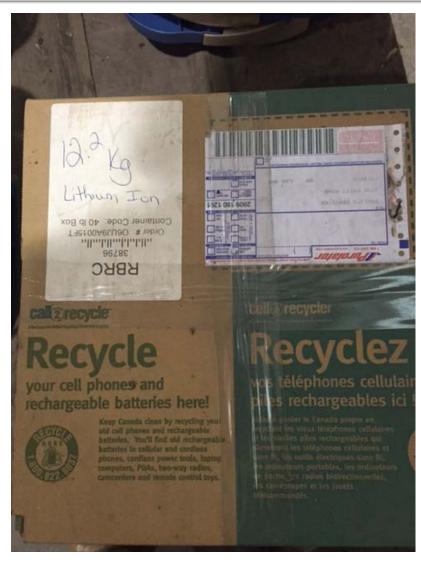

Cons: Can't be recharged

Battery Type: Nickel Metal Hydride (Ni-MH)

Commonly Found In: Cellphones, Cordless power tools, Digital cameras,

Two-way radios

Pros: Cadmium-free, Good performance, Can be recharged up to 1,000 times, Performs well in high drain devices

Where to Recycle: Please visit our drop-off locator

Battery Type: Nickel Cadmium (Ni-Cd)

Commonly Found In: Cordless power tools, Cordless phones, Digital cameras and video cameras, Two-way radios

Pros: Good performance, Least expensive of rechargeable batteries, Can be recharged up to 1,000 times

Cons: Moderate energy density, Rapid discharge, Toxic

Battery Type: Alkaline

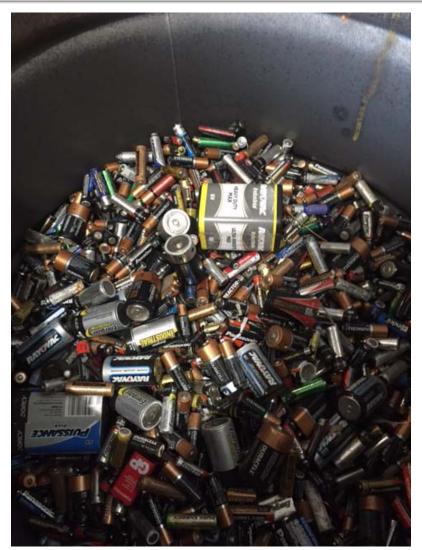

Commonly Found In: Alarm Clocks, Calculators, Flashlights, TV remote controls, Remote control toys

Pros: Higher energy density, Moderate discharge rate, Inexpensive

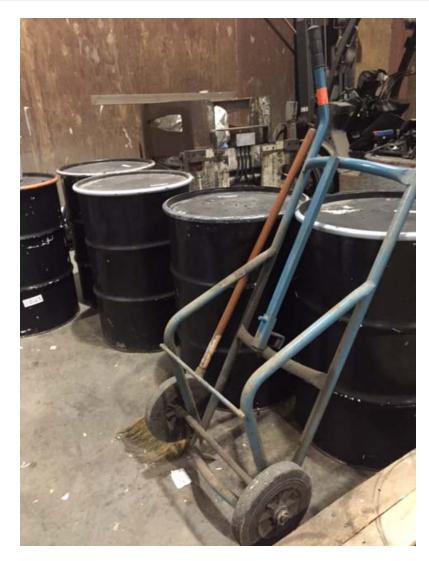

Cons: Most of them are non-rechargeable

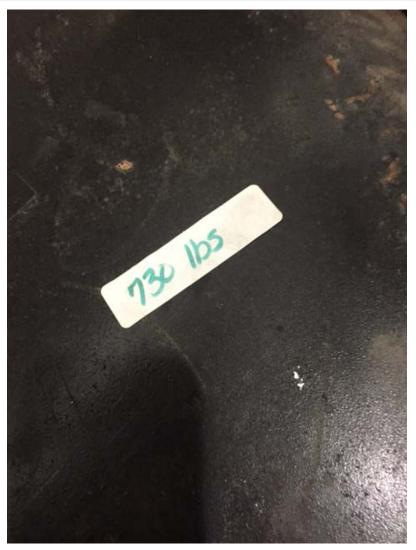

Poly and Reconditioned Steel Drums are Purchased.

Bulk Shipment To Date in 2015 Was Newalta – Now TerraPure

Mixed Quantity (kg) 7,203

Lithium (kg) 110

Small Sealed Lead Acid 150

- Average Monthly Weights Year 2015
- Average 635 kg/month
- Low 404 kg's August
- High 904 kg's July
- Total 7,622 kgs 7.6 Metric Tonnes
