- North American network

# “Packaging you can feel good about!”

# Trends & Innovation

- Design for recyclability (e.g. multi plastic pouches)
- Post-Consumer Recycled Resins (Envision Polymers closed-Loop FDA HDPE)
- Bio-Plastics
- Value-added packaging
- Food Preservation
- Reduced food waste

Our “Wish” that  
would impact  
our operations...

**Balanced** conversations on plastics: where it brings value (reducing climate change, food waste) and where it doesn't (over/unnecessary packaging, single-use examples).

Provincial and National **harmonization of recycling systems** to allow for recovery and recyclability that will build the **circular economy**.
